

Type 17HD - Clapets anti-retour (check-valve) pour applications haute pression

TYPE 17HD

2-way check valve

Cartridge design optional

■ Check valve for high pressure applications

TECHNICAL SPECIFICATION

Type of control:	-
Design:	-
Connection:	Threaded 19/16-18 UNF <i>Other connection like Cartridge on request</i>
Installation:	Preferable upright
Pressure range:	0.5 - 1000 bar
Medium:	Clean, neutral, liquid or gaseous
Viscosity:	50 mm ² /s
Temperature range:	Medium -40 °C bis +80 °C Ambient -20 °C bis +80 °C
Body material:	Stainless steel 1.4462, 1.4404* * with option 1W for hydrogen
Metallic inner parts:	Stainless steel 1.4301, 1.4571
Sealing:	FKM, POM

VALVE FEATURES

- For high pressure applications 1000 bar
- High life time
- Simple and compact design
- High-quality materials
- Reliable and sturdy sealing elements
- Cartridge design optional
